Jessica Slusark

PROFILE

Junior Front-end web Developer with previous tech sales experience within the mobile industry (advertising, saas, analytics, marketing, app testing, publishing). In my previous roles, working closely with developers significantly increased my interest in web development. This hands-on experience deepened my understanding of user needs, data intricacies, and product dynamics. Having built my web development foundation with courses such as **SheCodes** (part-time) and **CareerFoundry** (full-time), I continue to build upon the training I was provided with. Collaboration and consistent growth drives my work, fueling my dedication to learning and adapting.

PROJECTS

[Pokedex App](#)

EXPERIENCE

SensorTower - *Enterprise Account Executive, Gaming (EMEA)*

Berlin, Sep 2021 - Jan 2023

Engaged with mobile game developers at SensorTower, offering tailored marketing analytics solutions. Translated intricate datasets into actionable insights, aiding developers in navigating the mobile gaming trends.

PlaytestCloud - *Account Executive and Manager*

Berlin, Jul 2020 - Sep 2021

Served as a bridge between game studios and playtesting tools at PlaytestCloud. Communicated technical product changes, ensuring understanding and alignment among app/game developers and UX designers.

TheLazyRed.com - *Freelancer*

Berlin, Jan 2019 - Jun 2020

After relocating to Berlin and inspired by its vibrant entrepreneurial scene, I decided to use my sales background and passion for art, to offer custom game art services tailored to mobile game developers.

Unity - *Business Development Manager*

London, Nov 2015 - Dec 2018

Partnered with game developers at Unity, introducing advertising solutions and indie game strategies. Presented interactive design mockups, advocating for optimal in-game ad experiences and impact on game performance.

Game Analytics - *Mobile publishing assistant*

London, Feb 2015 - Nov 2015

Collaborated with game developers at Game Analytics. Transformed analytics into comprehensible insights and actively participated in game development discussions, honing gameplay and UI.
